MICHELIN CEREXBIB 2

1 LOAD CAPACITY

Low pressure for less soil compaction
CFO+ designation – carry more load at 6 mph cyclic in the field. Up to 45% less pressure vs standard radial tires.¹
Proven yield increase of 4% using Michelin Ultraflex tires.²

2 SOIL PROTECTION (COMPACTION)

Excellent traction and flotation
Flexible sidewall delivers larger footprint for larger contact patch with the soil.

3 TRACTION

Steel crown belts
Great stability. Excellent puncture resistance and optimized load distribution.

TIRE CHARACTERISTICS

ADDITIONAL INFORMATION

APPLICABLE VEHICLES

The harvester speed is 10 km/h. Thanks to MICHELIN CEREXBIB2, there is a bonus load capacity at this speed, allowing for reduced tire pressure which protects the ground and increases traction.

Product Category Manager
Michelin Group

(1) For 26,200 lbs, compared to a 900/60R32 Michelin Megaxbib standard radial
(2) Harper Adams University 2014/2016
