# MICHELIN XP 27

## 1 LONGEVITY

### Increase yield

Limit soil compaction thanks to the Michelin Ultraflex technology casing, and reduce the pressure up to 40% compared to a standard tire<sup>(1)</sup>. It is also CTIS compatible. Recommended for crop yield increase.

## 2 PRODUCTIVITY

### Soil protection even by your implement

Increasing max speed with a D speed index and load capacity. Thanks to several load/speed tables.

## 3 SOIL PROTECTION (COMPACTION)

### Implement tire longevity

Improve the longevity thanks to a flat profile and large footprint. Regular wear thanks to tread pattern.

## TIRE CHARACTERISTICS

## ADDITIONAL INFORMATION

### APPLICABLE VEHICLES

The MICHELIN XP27 enhances endurance for heavy loads at low tire pressures.

**Product Category Manager**  
Michelin Group

(1) VF standard allows pressure to be reduced by up to 40% compared to a standard technology tire.
