# MICHELIN X-CRANE+

## 1 CONFIDENCE

High-performance tread design. Shorter braking distance. Increased versatility (public and worksite roads) thanks to the asymmetric tread design: the tire must be mounted a specific way to maximize its advantages.

## 2 COMFORT

Reduced operating costs: Up to 20% longer service life <sup>(1)</sup> thanks to a new higher-quality rubber for a more wear-resistant tread surface: Increased equipment uptime and improved mounting for the entire line thanks to optimized engineering of the contact surface between the tire and rim for 445/95 R25 and 525/80 R25 size tires <sup>(1)</sup>

## 3 LONGEVITY

Retreadable tires without aromatic oils

### TIRE CHARACTERISTICS

### ADDITIONAL INFORMATIONS

#### APPLICABLE VEHICLES

<sup>(1)</sup> Compared to the Michelin X-CRANE or XGC tire depending on the size.
